# VA-615DS

## IN-CEILING DUAL CHANNEL SPEAKER

The VA-615DS multi-purpose in-ceiling speaker combines the great performance of the VA-615 with the convenience of a multi-channel design. As a whole-house audio speaker, the dual-channel VA-615DS provides both left and right channels from one speaker for smaller rooms, or for budget-conscious installations. For home theater, the VA-615DS can be utilized as a di-/bi-polar surround speaker, providing an enveloping surround experience from its discreet location. For installations where surround speaker locations are highly limited, a pair of VA-615DS' can be positioned and configured to broadcast both the side- and rear-effects channels of a home theater system, allowing for a full 7.1 surround experience.

# DIMENSIONS

# FEATURES

- Visage Series in-ceiling speakers come with round, edge-to-edge magnetic grilles, but square grilles are also available separately.
- Swing out dog leg mounting system with pre-started screws for fast and easy installation.
- Polyswitch protection circuitry designed to protect the tweeter from being over driven.
- Dual sound contour switches allow the woofer and tweeter output levels to be customized for any room.
- Steep acoustic slope crossovers are used to integrate the drivers.
- Paintable grilles to allow the speakers to virtually hide in the ceiling.
- Installation template.
